

From planning to implementing Smart Specialisation Strategies: lessons learnt so far through the S3 Platform

Manuel Palazuelos Martínez
S3 Platform, DG Joint Research Centre,
European Commission

WiRE 2014

Athens, 12 June 2014

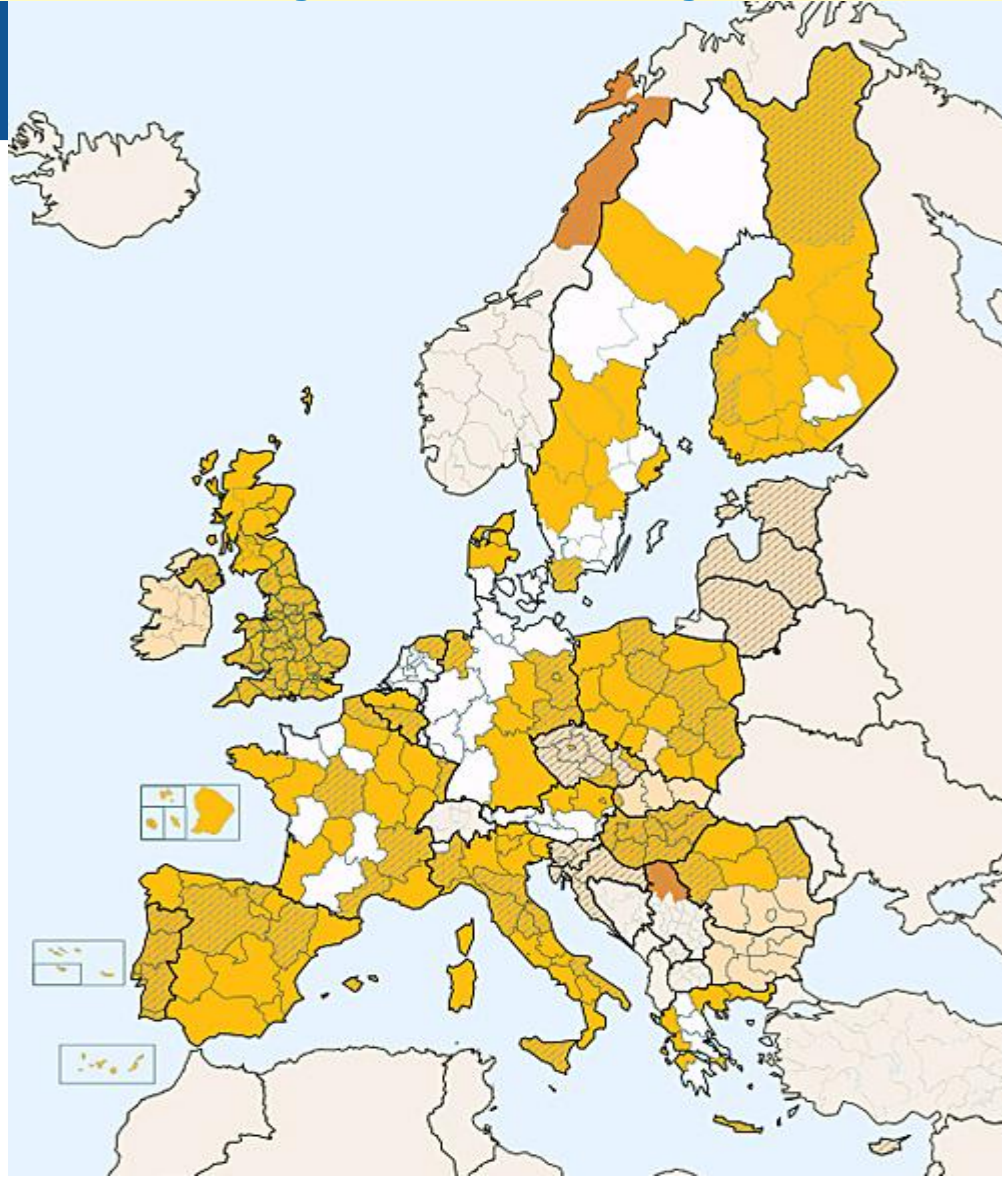

Outline

1. The S3 Platform. Concept and Development of Smart Specialisation
2. Some lessons learnt so far about the Smart Specialisation Strategies through the S3 Platform

Outline

1. The S3 Platform. Concept and Development of Smart Specialisation
2. Some lessons learnt so far about the Smart Specialisation Strategies through the S3 Platform

S3 Platform Members (12 June 2014):

151 EU regions
+ **15** EU countries
+ **2** non-EU regions

- EU Countries registered in S3P: 15
- EU Regions registered in S3P: 151
- Non-EU Regions registered in S3P: 2
- S3P Peer-reviewed Countries: 10
- S3P Peer-reviewed Regions: 50

RIS3 is an Economic Transformation Agenda

- Smart specialisation

- Behavioural change

- Growth and jobs

RIS3 guide – Key steps for developing a RIS3

Step 1 – Analysis of regional context/potential

Step 2 – Governance

Step 3 – Vision for the future

Step 4 – Selection of priorities

Step 5 – Policy mix

Step 6 – Monitoring and evaluation

Outline

1. The S3 Platform. Concept and Development of Smart Specialisation
2. Some lessons learnt so far about the Smart Specialisation Strategies through the S3 Platform

1. The difficult issues in RIS3

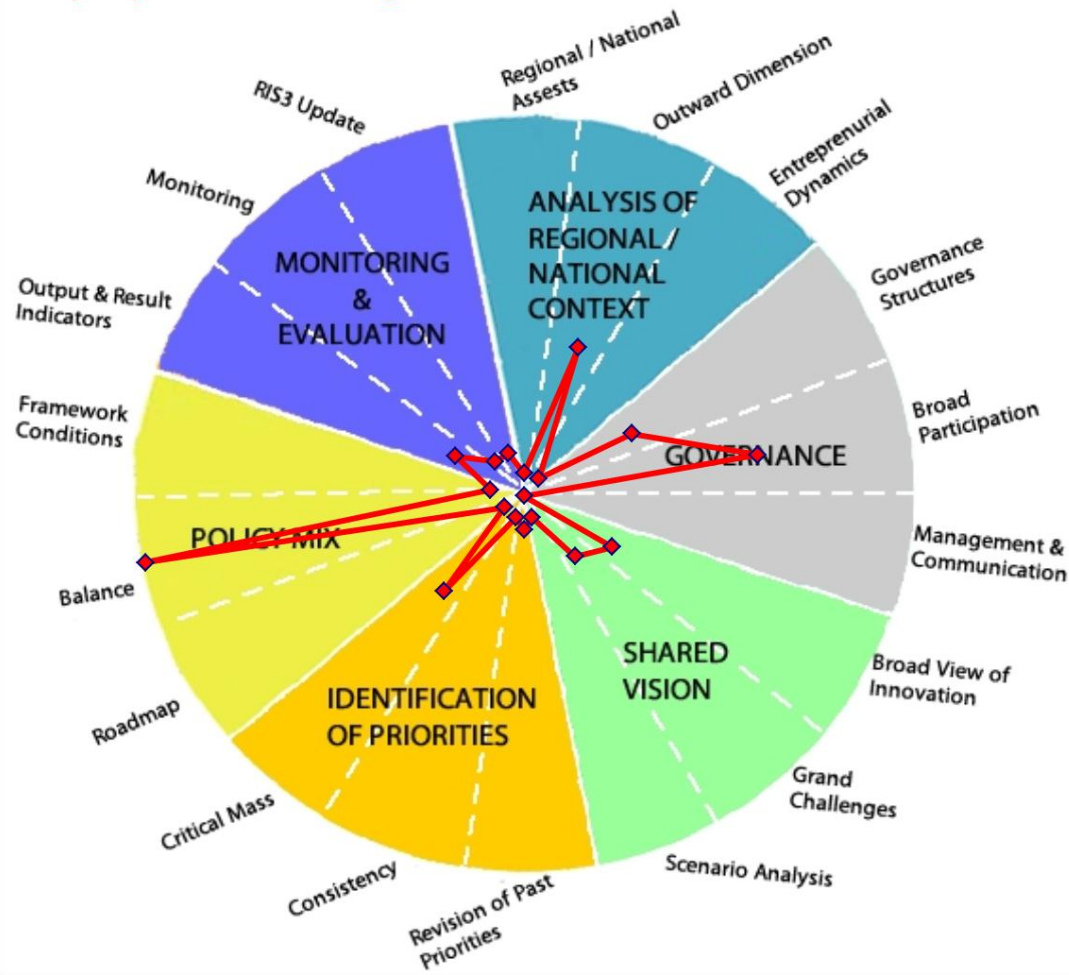

**Our experience
at S3P peer-review
workshops**

**We focus
on the novelties**

**We discuss
the elements of change**

- **Outward-looking dimension**
- **Stakeholders**
- **Broad view of innovation**
- **Critical mass**
- **Policy tools**
- **Monitoring indicators**
- **Priorities as "activities"**

S3 Platform peer-review workshops
Frequency of issue raised during discussions

2. Change of culture..., but difficult to break with the past.

From RIS to RIS3

Building on the past

- ❑ Widespread experience of national/regional innovation strategies in the framework of the EU Cohesion Policy
- ❑ Achieved greater co-operation among private and public stakeholders and better communication between technology providers and clients

Breaking with the past

- ❑ Not in tune with the industrial and economic fabric of regions
- ❑ Too narrow vision of 'technological' innovation
- ❑ The best performing regions were just copied or resources spread across 'all sectors'
- ❑ Lack of international and trans-regional perspective

3. The key to a good RIS3 process? The ENTREPRENEURIAL DISCOVERY PROCESS (EDP)

- The EDP distinguishes Smart Specialisation from traditional industrial and innovation policies
- Empowerment of stakeholders in the design of S3 strategies
- Good Prioritisation ...and no longer the exclusive role of the public planner
- Iterative self-discovery of a new domain of opportunity

- Ear to market signals
- *Entrepreneurs scan technological & market opportunities/bottlenecks*

European Commission

4. Emerging fields of Smart Specialisation

Mapping of regions' and MS intentions in terms of smart specialisation fields has started:

Specialisation fields are emerging that are related to:

- Energy
- Life science
- ICT
- Environment
- Agro-food
- Tourism
- New materials

Scope for cooperation and fine-tuning!

Capabilities 2 Target Market 2 EU Priority 2
