What we do

The PRIMA programme is implemented by the PRIMA Foundation on the basis of annual work plans.

PRIMA programmes supports research and innovation through:

- **Research & Innovation Actions RIA/IAs**;
- **Capacity building** in Euro-Mediterranean countries as a key transversal component of project proposals, enhancing research and innovation capacities in the field of water management and agro-food systems;
- **Networking, coordination**, collaboration and integration of national research programmes and activities among the PSs with specific activities managed directly by participating states;
- **National programmes alignment**, it will be ensured through PS contribution with PSIAs;
- **Involvement of critical mass of Stakeholders** (Scientific community, Civil Society, Businesses);
Towards Innovation uptake in the Mediterranean

Enhancing innovation potential in the Mediterranean to find concrete sustainable solutions to problems and opening new markets:

- with concrete activities to remove the barriers to innovation;
- unleashing the creative potential of innovators;
- reinforce innovation and fostering value creation;
- push forward concrete solutions from start-ups creating new businesses;
- open new markets;
- open to the world: Adopt innovation opening new markets also beyond Mediterranean borders.
